Antifreeze (Concentrate)

Gulf Antifreeze LL

Product Description:

Gulf Antifreeze LL is a top quality antifreeze, which belongs to the latest generation silicate-holding antifreeze. **Gulf Antifreeze LL** is a silicate-holding antifreeze composed of mono-ethylene glycol under addition of a wide range of additives. **Gulf Antifreeze LL** can be used throughout the year in cooling systems in all petrol and diesel engines. Thanks to the unique and well balanced additives package and high quality mono-ethylene glycol, **Gulf Antifreeze LL** belongs to the highest quality in the market. Before use, **Gulf Antifreeze LL** needs be diluted in the recommended proportions with water.

Features/Benefits:

- * Nitrite, Amine and Phosphate-free.
- * A good protection of all metals in the cooling system and engine.
- * Neutral in relation to gaskets and hoses.
- * A strong resistance against foam.

Warning : **Keep all antifreezes out of reach of children!!! Do not drink antifreeze!!!
If swallowed, induce vomiting and immediately call a doctor!!!**

Gulf Antifreeze LL (Concentrate)	
PRODUCT CODE	6901
SPECIFICATIONS:	
BRITISH STANDARD BS 6580	MB 325.2
AFNOR 15-601	GM/OPEL
ASTM D3306	DEUTZ/MWM
SAE J 1034	BMW
CUNA NC 956-16	VW TL 774C (G11)

TYPICAL PROPERTIES:	
DENSITY @ 15°C, kg/m ³	1078
CRISTALLISATION POINT @ 40% antifreeze/60% water	-26°C
CRISTALLISATION POINT @ 50% antifreeze/50% water	-38°C
COLOUR	Blue
